The Mental Health Access Crises

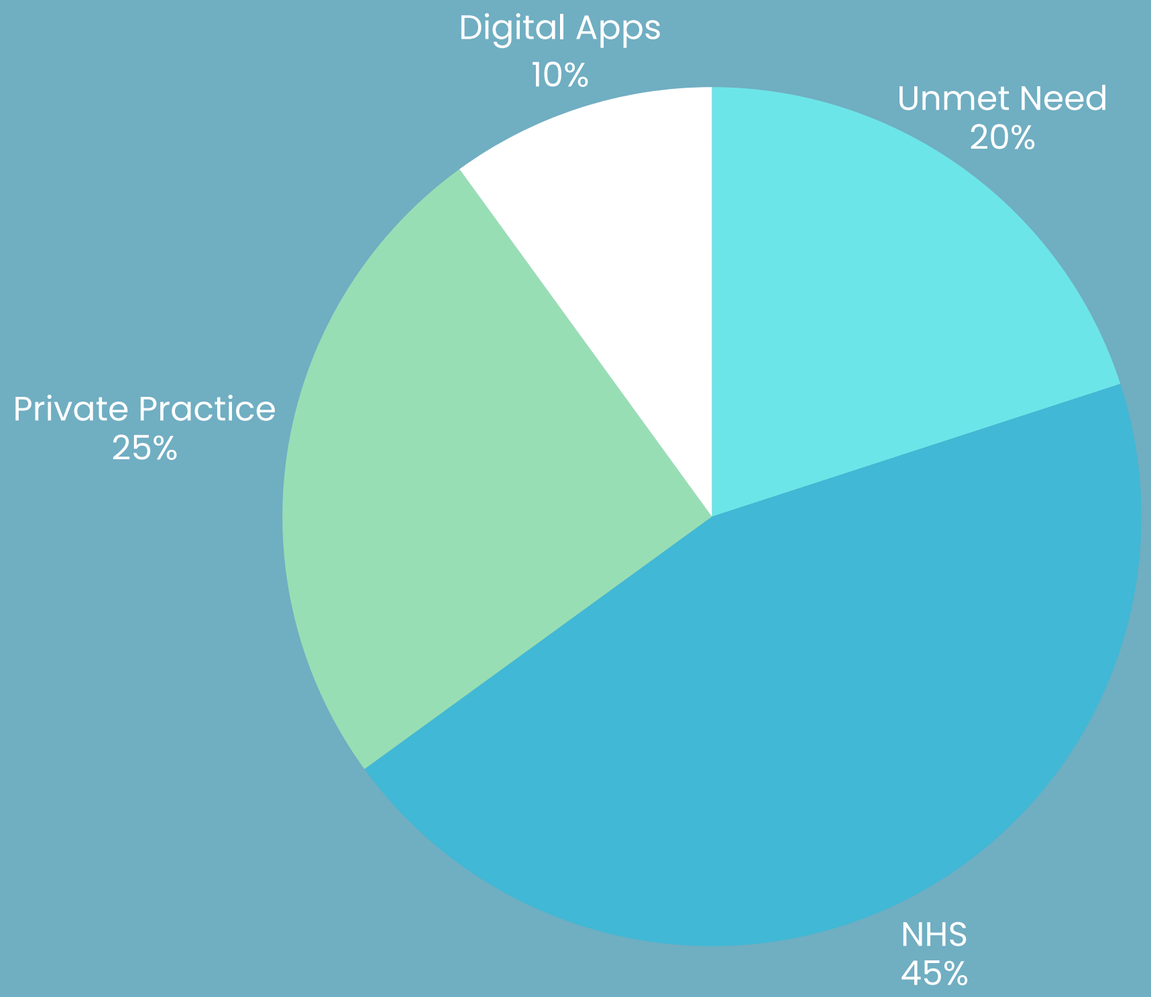

***The NHS** has over 1.2 million people stuck on waiting lists,*

Private Practice
Has no standardised intake.

Therapy Apps
Provide speedy access, but clinical rigour and safety are compromised.

Market Gap

The Structural Market Gap (Pie Chart)

Market Opportunity

Current Solutions Force a Trade-Off

UK Mental Health Demand

Private + Blended Care Growth

COMPETITOR BENCHMARK

The Strategic Positioning Matrix

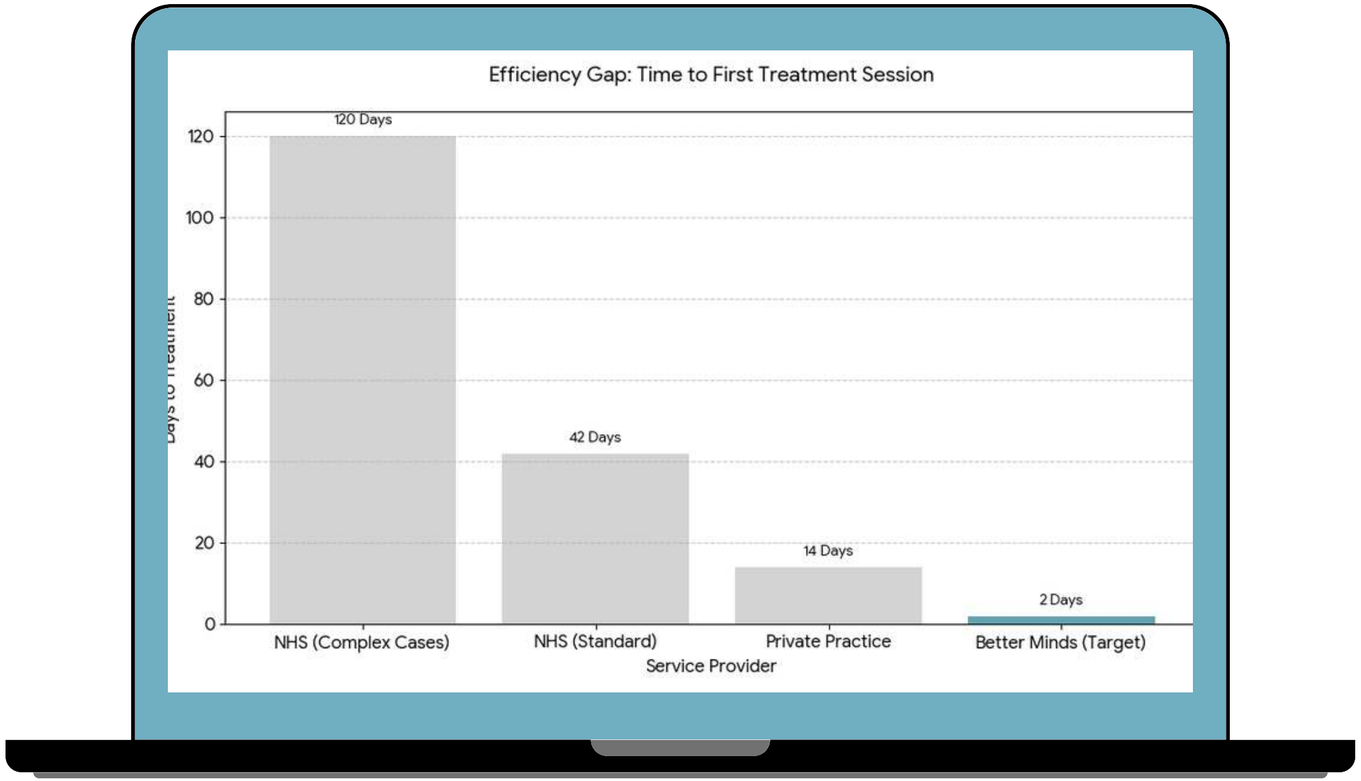

The Efficiency Gap (Bar Chart)

- The NHS Gap: Current complex cases in the NHS face a 120+ day wait, while even standard private practice averages 14 days

- The Better Minds Target: By automating the triage and intake process, we reduce this to a 2-day target.

PROBLEM DEFINED

Users and clinicians suffer from a loss of time, trust, and continuity caused by fragmented, manual, and structurally slow mental health intake systems.

Proposed Solution

What's BetterMinds

Better Minds

B2B platform that combines AI-powered intake with human clinical expertise.

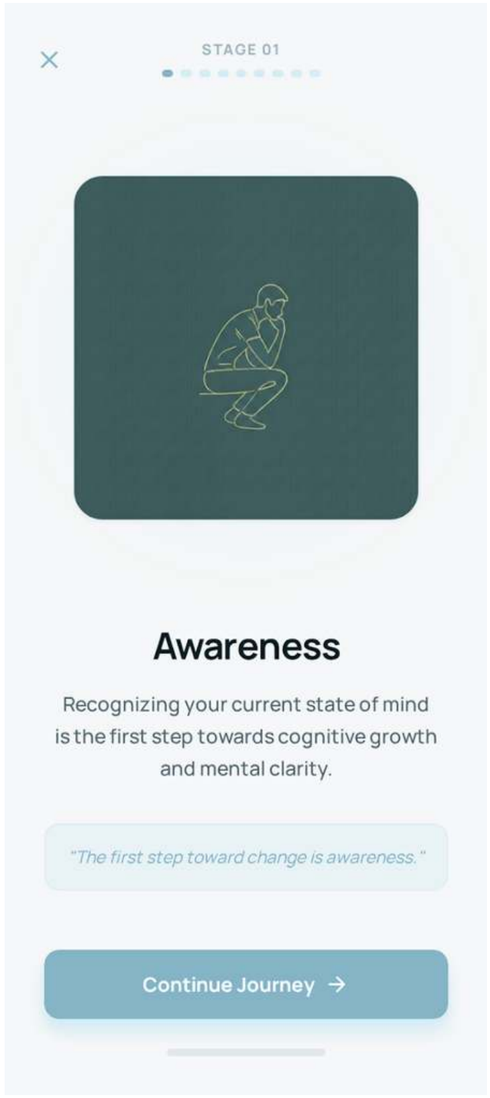

Imagine you're in a situation of mental crisis...

What options do you have to get the help you need?

Business Model

Better Minds

BUSINESS MODEL TABLE

KEY PATNERS

- Therapists/clinics & networks
- Clinical advisors/supervisors
- Scheduling/telehealth providers
- Security partners (assurance)
- crisis signposting/safeguarding partners

KEY ACTIVITIES

- Build intake + clinician cockpit
- Safety oversight + matching
- Onboarding & customer success (B2B + clinicians)

KEY RESOURCES

- AI intake + screening engine
- Clinician cockpit + secure data
- Clinical governance network

VALUE PROPOSITIONS

For Individuals (Patients/Clients)

- Faster start: guided chat intake + screening
- More control: review/edit & approve sharing
- Better fit: matched to licensed experts

For Clinicians/Therapists

- Less admin: snapshot before session 1
- Better first sessions: themes + scores upfront
- Higher fit: fewer mismatches + drop-offs

For Organisations (Clinics, Unis, Employers/EAPs)

- More capacity: support more people
- Better utilisation: less friction, higher follow-through
- Trust & governance: consent-first adoption

COSTOMER RELATIONSHIPS

- Guided onboarding & trust-first design
- Self-serve access & clear transparency
- Ongoing check-ins and progress prompts
- B2B training, support & account management

CHANNEL

- Direct B2B outreach (clinics/unis/employers)
- Therapist referral loop (invite to intake)
- SEO/content + targeted ads
- Web platform (mobile-first) + clinician portal
- Customer success onboarding/support

CUSTOMER SEGMENTS

- Individuals seeking fast, private support
- Clinics/therapists overloaded by admin
- Universities, employers & EAP providers

COST STRUCTURE

- Platform build + AI maintenance
- Cloud hosting + secure data handling
- Clinical governance + safeguarding
- Security/legal compliance (GDPR, audits)
- Marketing + B2B sales + partnerships
- Onboarding, support & customer success

REVENUE STREAMS

Recurring (B2B):

- SaaS subscription (per seat/site)
- Enterprise licences (unis/employers/EAPs)

Transaction (B2C/B2B usage):

- Platform fee per booked session
- Usage fees (per intake/match)
- Implementation & integrations (SSO/reporting)

KPIS , Success Metrics

Objectives	• To give access to speed service responsiveness	• Maximize client/clinician match accuracy	• Improve clinician workflow efficiency	• Drive sustained engagement and long-term platform value
Action Steps	• Fast paced AI -integrated administrative system	• Implement intelligent client alignment	• Automate administrative workflows	• Strengthen retention through continuous engagement
Key Performance Indicator	• Average Time to First Appointment (< 48h)	• Client Match Satisfaction Score	• Administrative Time Reduced per Clinician	• User & Clinician Retention Rate

LEGAL & DATA PROTECTION:

GDPR-compliant platform / minimisation, and secure handling standards.

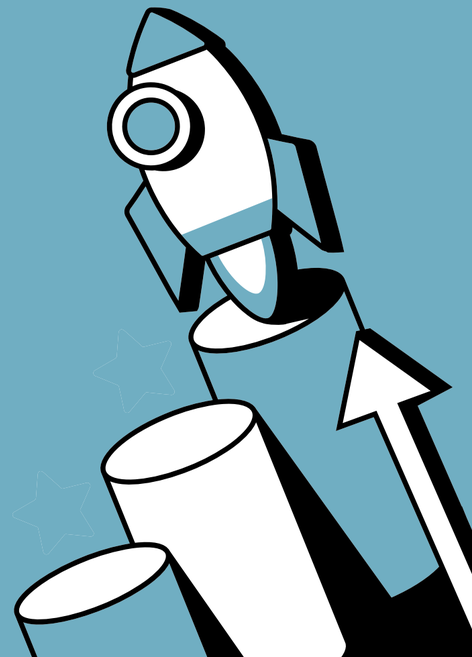

CLINICAL SAFETY:

No AI diagnosis / Clear crisis-escalation pathways when risk is detected.

ETHICS & TRUST:

Transparent and fair data practices.

Legal & Ethical Framework

FUTURE OUTLOOK, ROADMAP

Phase 1: 2025 – 2026 | Build & Validate

- Develop the AI conversational intake system
- Integrate validated screening tools (PHQ-9, GAD-7)
- Build the clinician dashboard
- Pilot with 5–10 private clinics
- Test and refine the matching system

2025 → 2026 → 2028 → 2030

Phase 2: 2026 – 2028 | Expand & Monetize

- Partner with employers and universities
- Strengthen SaaS subscription model
- Expand therapist network
- Improve personalization and tracking features

Phase 3: 2028 – 2030 | Scale & Integrate

- Introduce optional XR/VR support modules
- Explore public health system compatibility
- Develop white-label solutions
- Expand internationally

Call to Action

Reaching Out Is a Strength!

BOOK NOW

Why Better Minds?

The Urgency

- Mental health demand is ***accelerating***.
- Waiting lists are ***growing*** longer.
- Admin ***overload*** is limiting care.

THE BOTTLENECK ISN'T CARE, IT'S ACCESS.

Pilot with Clinics

- ***Test efficiency & clinical impact***

Partners with Universities & Employers

- ***Expand mental health access***

Validate with Early Users

- ***Refine & optimise experience***

The Goal

- ***Reduce intake time by 70%***
- ***Increase clinical capacity***
- ***Deliver better mental healthcare***

Better Minds is redesigning the **front door to care**

Now is the moment. Let's build together.

Thank You Very Much

Better Minds

Help is closer than you think

UK Mental Healthcare Market Share

Better Minds targets the unmet need segment.

Time to First Treatment Session (Days)

Better Minds dramataly reduces wait through automa intake.

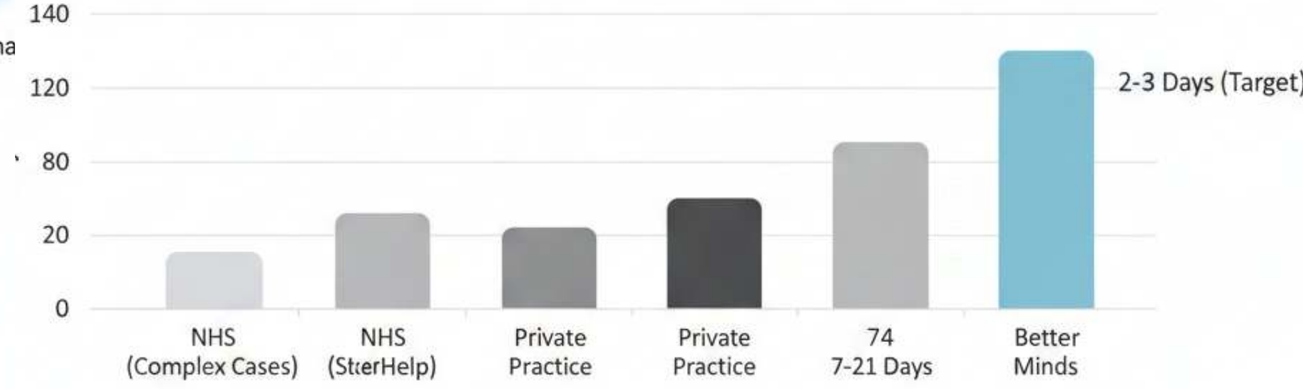

Strategic Positioning Map

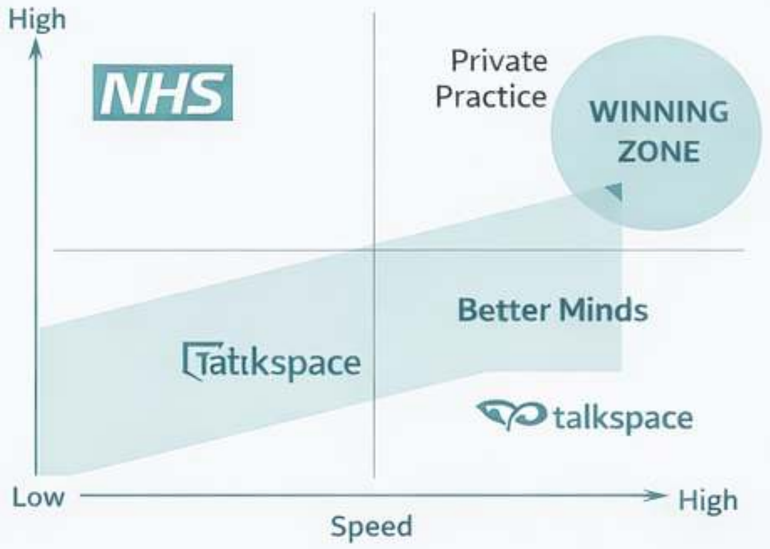

Better Minds: Highes, High-Quality Mental Healthcare Access

Better Minds: High-Speed, High-Quality Metcen, We remove tradker and safety and safett.

3. Competitive Landesape: Key Benchmarks

The Benchmarking Matrix

Better Minds occupies NHS-level safety with app-level speed, occupying the winning zone of high-quality, rapid access.

Better Minds vs. The Competition

Better Minds offers balanced performance: fast access, robust clinical assessments and secure, private handling.

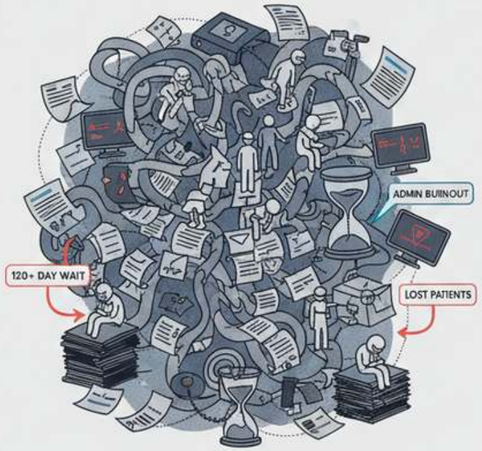

Benchmarking Summary

	NHS	Digital Apps BetterHelp	Traditional Private
Clinical Safety	✓	Slow	High
Speed	✓	Fast	Mixed
Data Privacy	Variable	Mixed	Low
Admin Burden	✓	Moderate	High

Better Minds uniquely combines NHS-level safety, app-level speed, and private-practice quality.

Problem + Solution

THE PROBLEM:
SYSTEMIC BOTTEBMECK

THE SOLUTION:
INTEGRATED CARE PATHWAY

FUTURE OUTLOOK, ROADMAP

The strategic roadmap of Better Minds reflects a structured and scalable growth strategy aligned with both market demand and operational feasibility.

In the first phase (**0–12 months**), the focus is on validation. By developing the AI intake system and piloting it with a limited number of clinics, the objective is to test product-market fit while minimizing risk. This phase prioritizes clinical safety, technological reliability, and user adoption.

The second phase (**1–3 years**) shifts toward expansion and revenue stabilization. Strategic partnerships with employers and universities allow Better Minds to move into a B2B model, generating recurring subscription revenue while increasing therapist network capacity.

The final phase (**3–5 years**) focuses on long-term scalability. Through optional XR modules, institutional integration pathways, and international expansion, Better Minds positions itself as a standardized and efficient gateway into mental health care.

Overall, this phased roadmap demonstrates a balanced approach between innovation, ethical responsibility, and sustainable growth.

BUSINESS MODEL

Value Proposition Canvas

Product

Benefits

- Standardised intake via chat + validated screening tools
- User-approved Clinical Snapshot
- Better match to licensed experts
- Less admin so session 1 starts with care

Features

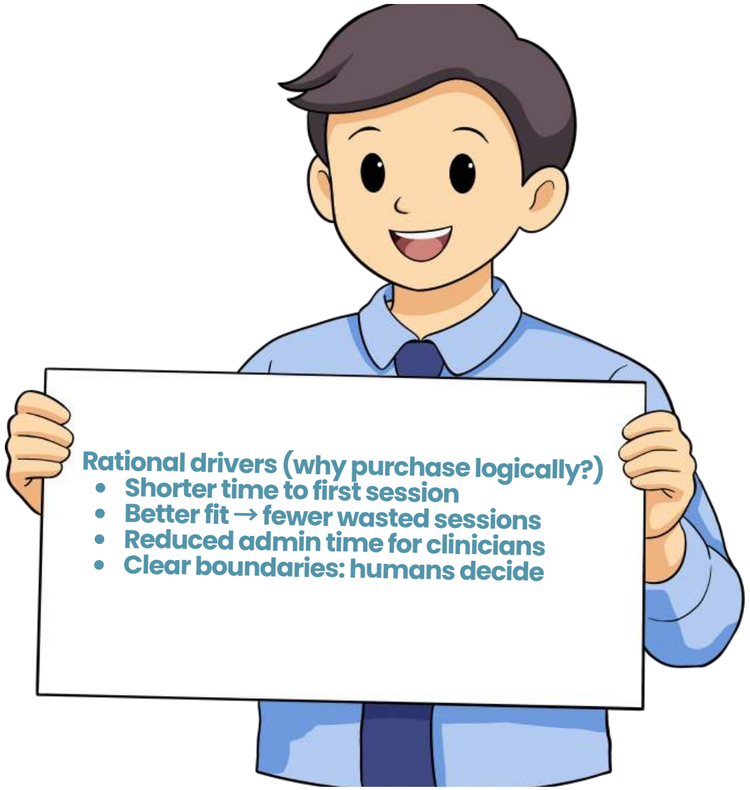

- MindMate conversational intake
- PHQ-9 / GAD-7 in-chat
- "My Clinical Snapshot" approval toggle
- Top matches + "why matched"
- Clinician cockpit (ready profile)

Experience

- Calm and guided
- Heard and understood
- In control (approve-before-share)
- Reassured (humans decide; not diagnosis)

Customer

Company:	Better Minds
Product:	AI-guided intake + Clinical Snapshot + matching + clinician cockpit
Ideal Customer:	Individuals seeking faster access to a licensed therapist

Substitutes:

- NHS/GP waiting lists
- Private clinics (manual intake)
- Therapy marketplaces (subscription/pay-per-session)
- Self-help / avoidance

Guardrail: The assistant supports intake and screening only; it does not provide diagnosis or clinical decisions. Crisis escalation/signposting is provided where needed.

Better Minds
