Sustainable Brands and Products

Jude's ICE CREAM

Team 3: Sydney Bell | Hrithika Patalay | Anaëlle Thibault | Jaqueline Beisel

COMPANIES CHOSEN

Europe-based B-Corp

US-based B-Corp

India-based Firm

WHICH FIRMS BEST UTILIZE THE TRIPLE BOTTOM LINE?

Ben & Jerry's

Judes

Naturals

All three firms show that sustainability can create business value, but they prioritize different areas. Ben & Jerry's balances profit, people, and planet most effectively, Jude's stands out for environmental leadership, and Naturals excels in community impact and local economic development.

ARE CONSUMERS RESPONDING?

YES.

38%+

REVENUE GROWTH

+£5m

PLANT-BASED SALES

+130

GREAT TASTE AWARDS

TOP

ETHICAL SCORE

Consistent double-digit growth in a mature, competitive market is a direct signal that consumers are choosing the brand and coming back.

TASTE LEADS, SUSTAINABILITY REINFORCES

Quality is the entry ticket

Values are the tie breaker

Proof beats promises

HOW JUDE'S ENGAGES WITH ITS SUPPLIERS ?

Certified B Corporation 2020

"Our people are without question our most important ingredient"

Ethical Sourcing Program (88% certified ingredients)

Empowering small businesses (local dairy farms)

ETI Base Code - against Modern Slavery (fair conditions, wages, breaks, right to unionize, no discrimination, no child labour

Plant based alternatives (uses 80% less land/ reduce carbon emission by 47%)

DOES THE FIRM HAVE ANY OTHER SUSTAINABILITY CERTIFICATIONS?

- BRCGS Certificated site of the year
- BRC AA Accreditation
- 130+ Great Taste Awards
- The 2021 Positive Social and Sustainable Impact Award from Lloyd's Bank British Business Excellence Awards

CIRCULAR APPROACH

Reusing Energy in Manufacturing

Water Circularity

Packaging & Waste

Localised Sourcing

AREAS FOR IMPROVEMENT IN SUSTAINABILITY

Cradle-to-Cradle Packaging

They made their packaging more recyclable but should that be the limit?

USE WASTE FROM PLANT-BASED ICE CREAM FOR PACKAGING

Pulp

Paper

Package

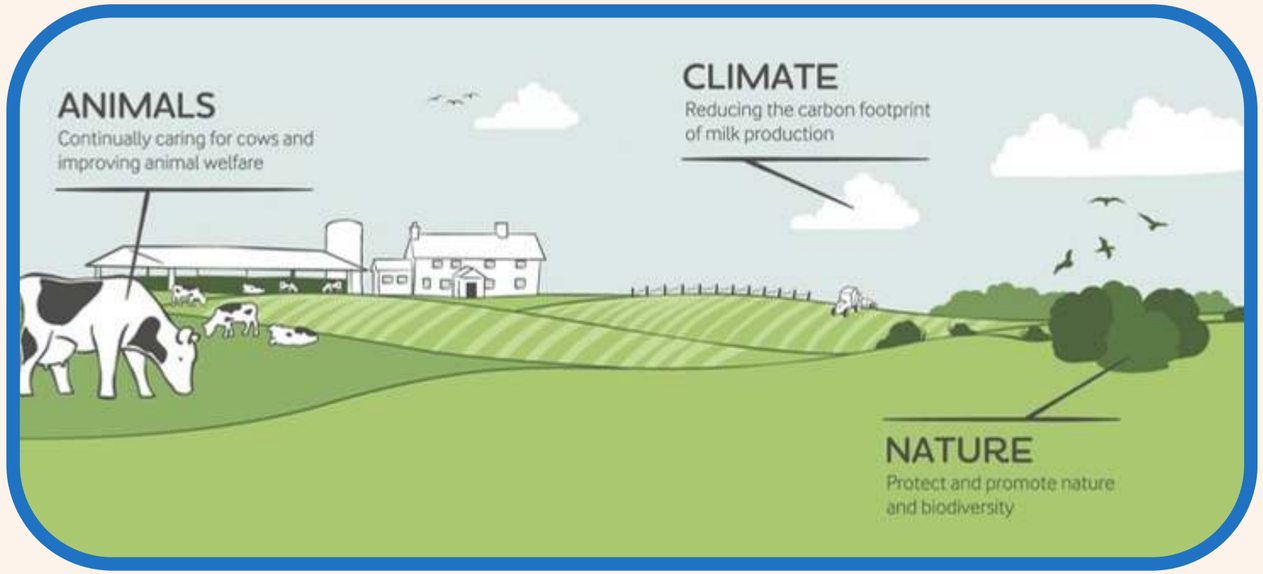

RECOMMENDATIONS BASED ON GAPS

HOW COULD JUDE'S EMPOWER DAIRY FARMERS TO REDUCE THEIR ENVIRONMENTAL FOOTPRINT ?

RECOMMENDATIONS

- Farming + agriculture = 50% of global methane emissions
- More dangerous than carbon dioxide
- Technology (data driven insights) sensors + collars
- Renewable energy (solar panels) + waste management (recycling water)
- Using manure as compost = imporved soil fertility + reduce need for GMOs.
- Monitor cow health + diet + low methane emission cow breeds

B-CORP

Between advantages and controversies

“Studies shown company with B-Corp certification register annual growth”

Legitimacy put into question when companies are certified but engage in greenwashing

B-Corp a powerful environmental label or a buzzword?

THANK YOU!

APPENDIX

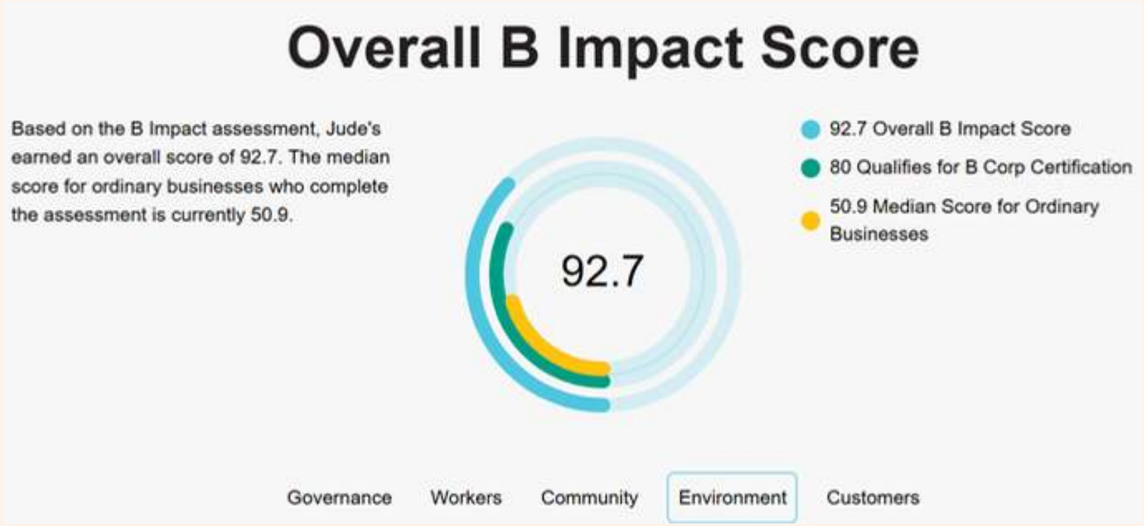

B -CORPORATION SCORE JUDE'S - BEN AND JERRY'S

JUDE'S ICE CREAM

BEN AND JERRY'S

(B-Corporation Lab, 2026)

COMPARISON OF THE TWO B-CORP CERTIFIED BRANDS

	People	Planet	Profit
Judes	• Developed a collection of low sugar (contain 30% less sugar) and low calorie (less than 25) ice creams to preserve children's health + vitamin D and calcium for bones. • Donated over half a million pounds to social + environmental causes. • B Corp in 2020 –taking into account all stakeholders voices not just shareholders to make business decisions : putting people and planet above profit. • Encourage the Better Business Act in the UK (pressure the government to pass a legislation to which other industries will have to comply (not taking into account only financial consideration but business impact over society as a whole and the environment). • Support charities, local food banks, churches ("In 2021 we gave away over 240k portions of ice cream, lollies, shakes and	• 1st Carbon neutral ice cream company in the UK. • Reduced their carbon footprint by 31% (2020 baseline). • Partnering with Mike Berners-Lee (global leading experts in carbon footprint) + Small World Consulting. • Target: reducing carbon emission by 43% by 2030 with already 30% achieved since 2020. • Investing in Biodiversity projects – the goal is: improve soil condition, increase oxygen production, reduce climate change effect… == partnership with Trees for the Downs –plant 12,000 trees in their local community. • Establishing resilience across their operations: installation of solar panels on the roof of their Twyford factory (36% of their electricity is powered by them). • 1st UK ice cream freezers with a solar alimentation.	• Highly popular ice cream brand in the UK, available in local grocery stores (Tesco, Sainsbury, Waitrose) + cinemas + theatres (part of cultural events). • Won over 130 "Great Taste Awards". • Being qualified as the "best ice makers in the world" • Vegan ice cream range: catering to an underserved segment (market opportunities, blue ocean).
Ben and Jerry's	• Advocates to defend LGBTQ+ rights (marriage equality + inclusion) • Support movements: used its brand influence (campaigns, statements, provided educational content) to support Black Lives Matter + raising awareness around racism issues in the US justice system. • Gives every year a minimum financial contribution of $1.1 M to charities + philanthropy. • Participate in the "Justice ReMix'd" program to tackle racism in the justice system + mass incarceration in the US (Close the Workhouse Coalition) • Partnering with Power U Center for Social Change: empower young people of colour to become the community leaders of tomorrow. • Fighting for providing work for refugee and asylum seekers partnered with Rhino Foods which employs refugees since the	• Fair trade ingredients since 2005 (1st company in the world to do so): fair wages for farmers around the world + ensuring safe working conditions (reducing poverty + ensuring equity across supply chain). • Ensuring majority of ingredients are from fair trade (achieved in 2011 for Europe and 2014 for the US). • Fair trade suppliers include producers of: cocoa, sugar and vanilla. • Limiting environmental impact through responsible ingredients + packaging sourcing. • Reduce methane emissions created by dairy farms + empowering farmers to develop greener practices + creation of "Caring Dairy" (encouraging environmentally friendly farming practices + animal welfare). 15 farms are participating in the program = the goal is to reduce their carbon emissions by 50% by 2025.	• Use of premium ingredients justify high price points playing on price-quality heuristics and customer willingness to pay (resonance thinking sustainable alternatives as they are health conscious). • Unique value proposition with humorous tone, original ingredient associations + limited collections (partnership with celebrities or well-known brands) + creative/ one of a kind flavours. • socially conscious brand appealing to a large target audience. • Registered $1 Billion in global sales in 2021. • Market leader in the US ice cream industry. • Resonate with environmental conscious consumers. • Social + environmental initiatives created a differentiating factor + competitive advantage for Ben and Jerry's.
